

RAZER SEIRĒN X

MASTER GUIDE

The **Razer Seirēn X** is the microphone designed specially to elevate the quality of streams. The microphone strategically filters unwanted background noise and features a built-in shock mount to dampen vibrations. To ensure it fits your gaming setup perfectly and professionally, it's constructed to be sleek and non-**obstructive**, allowing your audience to see more of you. It's the microphone needed to propel your streaming journey to greater heights.

5. SETTING UP YOUR RAZER SEIRĒN X

1. Tighten the support rod onto the threaded portion of the desk stand base.

2. Rotate the Razer SeirĒn X onto the threaded portion of the support rod until it is securely fastened.

3. Slightly tilt the microphone, then connect the Razer Seiren X to your computer using the Micro-USB to USB cable.

Note: You may connect an analog audio output device (such as a headphone) to the 3.5 mm headphone port, if you want to listen to both PC audio and the audio being recorded by your Razer Seirēn X at the same time.

4. Set the Razer Seirēn X as the default playback and recording device of your computer. This is required if you are using the Razer Seirēn X for the first time.

A. For Windows users

Step 1: Open your Sound settings from **Control Panel > Hardware and Sound > Manage audio devices**. You can also right-click on the sound icon in the system tray, and then select **Playback devices**.

Step 2: In the **Playback** tab, select Razer Seirēn X from the list and click the **Set Default** button.

Step 3: In the **Recording** tab, select Razer Seirēn X from the list and click the **Set Default** button.

B. For OS X® users

Step 1: Open your Sound settings from **System Preferences > Sound**.

Step 2: In the **Input** tab, select Razer Seirën X from the list.

Step 3: In the **Output** tab, select Razer Seirën X from the list.

Congratulations, you are now ready to use your Razer Seirën X.

6. USING YOUR RAZER SEIRĒN X

ADJUSTING THE HEADPHONE VOLUME

Rotate the headphone volume control clockwise or counterclockwise to increase or decrease the headphone volume.

7. SAFETY AND MAINTENANCE

SAFETY GUIDELINES

In order to achieve maximum safety while using the Razer Seirēn X, we suggest that you adopt the following guidelines:

Should you have trouble operating the device properly and troubleshooting does not work, unplug the device and contact the Razer hotline or go to support.razerzone.com for support. Do not attempt to service or fix the device yourself at any time.

Do not take apart the device (doing so will void your warranty) and do not attempt to operate it under abnormal current loads.

Do not puncture nor insert foreign objects into any of the device's openings.

Do not use or install the device and its components near water, moisture, solvents, or other wet surfaces, nor expose the device to high temperatures or direct sunlight for an extended period of time.

Keep the device and its components away from liquid, humidity or moisture. Operate the device and its components only within the specific temperature range of 0°C (32°F) to 40°C (104°F). Should the temperature exceed this range, unplug and switch off the device in order to let the temperature stabilize to an optimal level.

Listening to excessively loud volumes over extended periods of time can damage your hearing. Furthermore, legislation of certain countries permits a maximum sound level of 86dB to affect your hearing for 8 hours a day. We therefore recommend that you reduce the volume to a comfortable level when listening for prolonged periods of time. Please, take good care of your hearing.

MAINTENANCE AND USE

The Razer Seirēn X requires minimum maintenance to keep it in optimum condition. Once a month we recommend you unplug the device from the computer and clean it using a soft cloth or cotton to prevent dirt buildup. Do not use soap or harsh cleaning agents.
