6 MAINTENANCE

Clean the surface of the solar panel when needed. Always use a soft sponge or cloth for cleaning. A mild, non-abrasive cleaning detergent may be used to remove stubborn dirt. Don't clean when the panel surface is hot.

Clean solar panels more frequently during drier months, as they may become covered in dust more quickly. A pressure washer is not recommended.

Caution: Observe the maintenance instructions for all components used in the system, such as support frames, charge controller, batteries, etc.
