

Solar Fence Light User Manual

Operation Instructions

Step 1: unlock and activate the solar light

Since the internal Li-ion rechargeable battery is locked from factory for safety shipment, therefore it is important to open the lampshade and then to click the "ON/OFF" button to turn on the light.

Step 2: choose a good location

The lamp is solar powered, a good location that facing south can guarantee the solar panel access to the strong sunlight directly without any shelter or glass in order to fully charge the device.

Step 3: mounting the solar lamp

Place the solar LED lamp in the location where needs light. Using a pencil or felt tip marker, mark the placement of hole of solar led lamp. Choose a drill bit appropriate and drill the point where it is marked. Gently hammer the pillar-hinge into the hole and fasten the screws. Tighten the mounting screw securely.

Speciation

Solar Panel: 2V, 0.26W

Li-ion Battery: 1.2V, 600mAh

LED: 6PCS,

Color of Lamp: White or warm white

Charge Time: 6 hours

Working Time: 6-8 hours

Material: ABS

Waterproof: IP65

Net weight: 134 g

Gross Wight: 190 g

Product Size: 9 x 5 x 6.5 cm (L*W*H)

Package Size: 130 x 10 x 5.5 cm (L*W*H)

Color: Black / White

Warranty: One year warranty
